HOOFLAND'S GERMAN BITTERS AND Hoofland's German Tonic. The Great Remedies for all Diseases of the LIVER, STOMACH, OR DIGESTIVE ORGANS.

HOOFLAND'S GERMAN BITTERS Is composed of the pure juices (or, as they are medicinally termed, Extracts,) of Roots, Herbs, and Barks, making a preparation highly concentrated, and entirely *free from alcoholic admixture of any kind.*

HOOFLAND'S GERMAN TONIC, Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public. Those preferring a *Medicine free from Alcoholic admixture*, will use

HOOFLAND'S GERMAN BITTERS. Those who have no objection to the combination of the bitters, as stated, will use

HOOFLAND'S GERMAN TONIC. They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the tonic being the most palatable.

The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The liver, sympathizing so closely as it does with the stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which is assured from his investigation and inquiries possesses true merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of the diseases. In this connection we would submit those well known remedies—

HOOFLAND'S GERMAN BITTERS AND *HOOFLAND'S GERMAN TONIC*, Prepared by Dr. C. M. JACKSON, PHILADELPHIA, PA.

Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous *Debility, Chronic Diarrhœa, Diseases of the Kidneys*, and all Diseases arising from a disordered Liver, Stomach, or Intestines.

DEBILITY, *Resulting from any Cause whatever; PROSTRATION OF THE SYSTEM, induced by Severe Labor, Hardships, Exposure, Fevers, &c.*

There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE, And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC, an elixir that will instil new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE. It is a well established fact that fully one half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression, never feel well. They are languid, devoid of all energy, extremely nervous, and have no appetite.

As this class of persons the BITTERS, or the TONIC, is especially recommended.

WEAK AND DELICATE CHILDREN, Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietor, but space will not allow of the publication of but a few. Those, it will be observed, are men of note and of such standing that they must be believed.

TESTIMONIALS.

HON. GEORGE W. WOODWARD, *Chief Justice of the Supreme Court of Pa.*, writes: *Philadelphia*, March 18, 1765.

"I find 'Hoofland's German Bitters' is a good tonic, useful in diseases arising from a disordered state of the digestive organs, or want of nervous action in the system. Yours, truly, GEO. W. WOODWARD."

HON. JAMES THOMPSON, *Judge of the Supreme Court of Pennsylvania. Philadelphia*, April 28, 1866.

"I consider 'Hoofland's German Bitters' a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON."

FROM REV. JOSEPH H. KENNARD, D. D., *Pastor of the Tenth Baptist Church, Philadelphia.*

Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of various kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear conscience, from strong personal proof in various instances and particularly in my own family, of the worthiness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, *for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above diseases. Yours, very respectfully, J. H. KENNARD, Eighth, below Coates St.

FROM REV. E. D. FENDALL, *Assistant Editor Christian Chronicle, Philadelphia.*

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver. Yours truly, E. D. FENDALL.

Governor Geary's Annual Message.

To the Senate and House of Representatives of the Commonwealth of Pennsylvania:

GENTLEMEN: For the harmony and general relations of comity and friendship existing between Pennsylvania and all the other States and Territories of the National Union; for the present prosperous condition of the Commonwealth; for the glad signs of coming political tranquillity; and for the success which attends the progress of our free institutions, we owe a heavy debt of gratitude to Divine Providence.

Finances.

Reduction of the State Debt.

By the report of the Commissioners of the Sinking fund for the year ending September 3, 1867, the "loans redeemed" amounted to $1,794,569 50, and by their report from September 3, 1867, to November 30, 1868, the "loans redeemed" amounted to $2,414,816 64, making a total reduction of the State debt, in two years and three months, of four million two hundred and nine thousand three hundred and eighty-six dollars and fourteen cents.

The assets remaining in the Sinking Fund are as follow, viz: Bonds of the Pennsylvania Railroad Company, six million, four hundred thousand dollars, and bonds of the Philadelphia & Erie Railroad Company, three million, five hundred thousand dollars. These are non-interest bearing bonds and will not mature for many years. I, therefore, recommend to the consideration of the Legislature the propriety of the passage of a law authorizing the Commissioners of the Sinking Fund to sell these bonds at public sale to the highest bidder, and direct the proceeds to be applied to the liquidation of the State debt.

Public Debt.

Public debt outstanding December 1, 1867.....$37,704,409 77
Deduct amount redeemed at State Treasury during the fiscal year ending November 30, 1868, viz:
6 per cent. loans.....$4,354 253 64
4½ per cent. ov's.....63,900 00
Refief notes cancelled.....210 00
4,417,163 64
Public debt December 1, 1868.....$33,289,949 13

Statement showing the condition of the indebtedness of the Commonwealth on the 1st day of December, 1868.

Funded debt, viz:
6 per cent. loans.....$25,311,180 00
5 per cent. loans.....7,749,771 56
4½ per cent loans.....112,000 00
Total funded.....$33,172,951 56
Unfunded debt, viz:
Relief notes in circulation.....$96,415 00
Interest certificates outstanding 13,935 52
Interest certificates unclaimed, 4,445 38
Domestic creditors' certificates, 44 67
Total unfunded.....113,984 57
Total funded and unfunded.....$33,286,946 13

Which is the amount of the State debt as before stated.

During the last eighteen years there has been carried upon the accounts of the Auditor General and State Treasurer, and in their several public statements, "depreciated funds unavailable" to the amount of forty-one thousand and thirty-two dollars. I recommend the appointment of a joint committee, by the Legislature, whose duty it shall be to examine the said depreciated and unavailable funds and dispose of them to the best advantage of the Treasury; or, if found to be worthless, to cancel and destroy them, so that the accounting officers may be relieved from the necessity and responsibility of annually accounting for them.

The large cash balance remaining in the Treasury on the 30th of November, 1867, has been used for the payment of the twenty-three million loan and for the liquidation of outstanding claims against the State. The investment of the funds, in one of the modes recommended in my last annual message, has, therefore, in a great measure been rendered unnecessary for the present. But in the event of large accumulations of money hereafter, the recommendations therein given are respectfully referred to, and renewed.—Whenever there may be surplus funds in the Treasury, they can, with safety and benefit to the State, be employed in the purchase of its outstanding bonds, and in saving the interest on them which would accumulate prior to their maturity.

I regret to state that the last Legislature, although fully forewarned in regard to the insecurity and want of proper and sufficient guards for the safe keeping of the money of the Commonwealth, failed to determine upon any mode by which the Treasury may be effectually guarded against the possibility of loss. The present Legislature has it in its power to secure for itself no ordinary honor, by the enactment of such a law, strong and efficient for the purpose indicated, and the enjoyment not only of the approbation, but the permanent gratitude of every citizen.

Notwithstanding the satisfactory reduction of the public indebtedness, as shown in the foregoing statements, an immense State debt is still upon us, requiring nearly two million of dollars to be collected to pay the interest accruing upon it annually. Its extinguishment at the earliest practicable period, not inconsistent with other public interests, is of the highest importance to every tax-payer. I cannot, therefore, too strongly urge the strictest economy in respect to every expenditure and the utmost retrenchment in every department.

Retrenchment is emphatically demanded by the people, in legislative expenditures, as well as in every other branch of the government. Their eyes are open to investigate every transaction, and by their ballots they are ready to strike down those who will not take effective action in favor of positive and radical reform. The money paid into the Treasury is the property of the people, every one of whom has a just right to hold his representatives to a strict accountability for every dollar that may be *appropriated or expended.*

I here renew the remarks made last year on the subject of "annual appropriations," to which you are respectfully referred. For four successive years the general appropriation bills have been signed on the 11th day of April, being about the time of adjournment. The Governor has been forced either to sign the bills without proper investigation, notwithstanding any objections he may have; suspend the means to defray the operations of the government for the ensuing year; or call an extra session of the Legislature. I repeat that "it is earnestly desired that the appropriation bill be taken up, discussed and passed at a sufficiently early period during the session to enable it to receive that thorough examination which its importance demands."

Common Schools.

The annual report of the Superintendent of Common Schools exhibits the condition of that department in a highly satisfactory manner. Within the State there are 1,918 school districts; 13,766 schools; 2,382 graded schools; 11,698 school directors; 73 county, city and borough superintendents; 16,771 teachers; and 800,515 pupils. The cost of tuition for the year was $3,273,269 43; of building, purchasing and renting school houses, $1,091,152 55; of contingencies, $854,253 21. These three items, with expenditures for all other purposes connected therewith, amount to the aggregate sum of $6,200 537 96.

These facts are exhibited with great satisfaction, as they show the average annual cost for the tuition of each pupil to be about seven dollars and seventy-four and a half cents. The average amount paid to each teacher is about $195 17½ per annum. This, in my opinion, is too small a salary to secure the services of competent teachers; and I am fully justified in urging the necessity of increased compensation. It is but just, and it will have an elevating tendency not only upon the teachers but the manner in which their duties are performed.

Your attention is called to the fact that, notwithstanding the ample provision now made by law for the education of all persons between the ages of six and twenty-one years, large numbers of children, principally in our cities, do not attend any kind of school. Over twenty thousand of this class were found in Philadelphia, and the number in the State is estimated to be not less than seventy-five thousand. These children grow up in ignorance, frequently without employment, and many of them contract habits of vice, which eventually cause them to be committed to houses of refuge, county prisons or penitentiaries. Humanity and sound public policy demand that something be done to remedy this growing evil, and also that of the neglected condition of considerable numbers of children in the alms and poor houses in many of the counties.

Four Normal Schools are now recognized as State institutions. The number of students attending them during the past year was 2,115, of whom eighty graduated. Two additional Normal Schools will probably go into operation during this year, one located at Bloomsburg, Columbia Co., and the other at California, Washington county. The value of these institutions to the common school system cannot be estimated. Our schools are comparatively worthless without qualified teachers, and such teachers can most easily be obtained from the Normal institutes, where the art of teaching is made a specialty.

A meeting of the presidents and other authorities of a number of our principal colleges was held in Harrisburg last winter, the object of which was to bring about a closer union of all our educational institutions, and connect by a bond of sympathy, if not of organic structure, the common schools, high schools, academies and colleges. The establishment of such an educational department seems to be desirable.

Soldiers' Orphans' Schools

In his report the Superintendent of Soldiers' Orphans' Schools exhibits the the total expenditure for their support from December 1, 1867 to May 31, '68, to be $236,970 26; total number of pupils in the schools 3,431; average cost per pupil $69 06½ for six months; and the average weekly expenses per pupil $2 65½. The fiscal year of these schools, terminates by law on the last day of May of each year. The present report of the Superintendent, therefore, embraces only six months, and reports will be made to the 31st day of May, annually, hereafter. The special appropriation of February 25, 1868, made in accordance with an estimate of the Superintendent, presented in my last annual message, exceeded the actual expenses $6,004 74.

The schools are all in good condition and improving, and their usefulness is daily becoming more manifest.

Agricultural College.

Before the General Government appropriated public lands to the several States for the purpose of agricultural and military education and the mechanic arts, and prior to the time when Pennsylvania endowed the Agricultural College with her share of these lands, it was dependent wholly upon individual influence, without any other means for its support than its own earnings. History proves that seminaries of learning cannot be efficiently sustained by their own internal resources. The education of youth in the higher branches of knowledge seems to require the aid of philanthropic contributions. This institution had not these benefits to any adequate extent, and though the board of trustees bestowed upon it the most anxious care, their zeal and labor, combined with those of its friends, were not equal to a contest with the want of means. Hence the school did not command the confidence of farmers who were able to educate their sons, and who could not forget that the character of the college attached to the character of its graduates; and that its failure would enter into the estimate which the world would place upon the education it bestowed. This feature has now been removed. The people, through their Legislature, have endowed this institution with the interest upon a fund of $318,500 00, (invested in United States and Pennsylvania State six per cent. bonds,) payable to it semi annually. Last year this interest amounted to $25,642 78. The residue of the fund, $43,886 50, has been appropriated, under the law, by the board of trustees, to the purchase of three model and experimental farms; one at the college, in Centre county, for $8,000 00, one in Chester county, for $17,750 00, and one in Indiana county for $18,136 50. The board has also recently re-organized the faculty and remodeled the course of studies, so as to adapt them to the wants of the agricultural community. This new order of things goes into operation at the commencement of the next session, and it is earnestly hoped will be a success.

Military.

From the report of the Adjutant General you will learn the condition of the Military Department. The inactivity in military affairs after the cessation of hostilities and upon the return of peace, has in a great measure been dispelled, and an active martial spirit now prevails throughout the State; more particularly in Philadelphia, where, by a special legislative enactment, the minimum number of men required to form a company has been reduced, and a brigade fund is raised by a tax upon those who are not members of a military organization, but liable to the performance of military duty. I recommend the passage of a similar law for the whole State. For the sake of preserving the great interests involved, which include the lives, property and happiness of our people, this is presented to you as an important subject for your deliberation.

Every possible encouragement of volunteers has been afforded, and notwithstanding the difficulties indicated it has resulted as follows: In 1866 there were eight volunteer companies in the State; in 1867, thirty-eight; and in 1868, seventy-seven, and a number of others in preparation for organization.

By a reduction of the number for a company from that now required to an aggregate of fifty officers and men, companies would soon be numbered by the hundred, any of which could easily be recruited to the maximum number if required for active service. The State that always maintains the highest degree of preparation, accomplishes most and suffers least in the conflict of arms; and by being in readiness it often prevents improper encroachments upon her rights.

The Adjutant General presents a full and detailed statement of the disbursements in his department during the year ending November 30, 1868, with an estimate for the necessary appropriations for the current year, and also for such amounts as have been discovered to be due from the Transportation Department, contracted during the war.

State Agency.

The existence of the Military State Agency at Washington terminated on the 31st day of July last, at which time the appropriation for the payment of its expenses was exhausted. Much benefit resulted to many of the soldiers of our State, and their representatives, from this office, in which their just dues from the United States Government were collected and transmitted to them free of charge. In August, after the agency ceased to exist, there still remained a considerable number of unsettled claims, and as no one knew more about their condition, or could possibly obtain an earlier settlement of them than the late agent, Col. Cook, I permitted him, upon his own offer, to close up the business of the office, and to transact any other business for the soldiers of Pennsylvania at *one half the fees* that are charged by any other private agency in Washington City. This arrangement has thus far been carried out, and I am pleased to add, with very general satisfaction. All the books and papers of the agency will be transferred to the office of the Adjutant General.

Registry Law.

At the last session of the Legislature an act was passed known as the "Registry Law," the intention of which was to protect the ballot box against corruption and fraudulent voting, to which it has for many years been disgracefully exposed. This law seems to have been so defective in some of its provisions as to have received the condemnation of a majority of the Supreme Court, by which it was pronounced "incongruous and unconstitutional." At the election immediately after this decision, it is alleged that frauds were perpetrated, surpassing in magnitude, perhaps, any that have been consummated heretofore in the history of the Commonwealth. These frauds have demonstrated the necessity of the passage of some law, or laws, that will accomplish the desired object, without being subject to the exceptionable features pointed out by the learned gentlemen who pronounced the opinion of the Supreme Bench.

There is no subject of such vital importance to the whole country as the sanctity of the ballot box, and the protection of all citizens in their right to the elective franchise. This right is our proudest boast. It endows the American citizen with a freedom and a power not possessed by the subject of any other government. It invests him the peer of his fellow man, whatever may be his rank, station, or position of life. To be deprived of it by any means whatever, his boasted freedom becomes a sham—his especial and exalted prerogative a mockery and a farce. What avails it to the citizen that he is entitled to a vote, if that vote is to be nullified by fraud? Such guards, then, should be thrown around the polls as will effectually, if possible, preserve them from the taint of a single illegal vote. Not only should false voting be severely punished, but false swearing to obtain a vote, be visited with the pains and penalties of perjury and with perpetual disfranchisement.

The people must be perfectly free to regulate their public business in their own way, and when the voice of the majority is fairly and clearly expressed all should bow to it as to the voice of God. They are the sovereign rulers, and their will must be the law of the land. Corruption of suffrage in a republican government is the deadliest crime that can be perpetrated; it is assassination of the sovereignty of the people, and will be followed by a despotism, the motive power of which will be money and perjury. And if this privilege be tampered with, sooner or later the sure and indignant popular condemnation will be rendered and condign punishment administered. All good citizens, of whatever political opinion, should lend their aid for the *accomplishment of any and every* measure that may tend to secure to each voter, not only his right to the elective franchise, but the assurance that his vote will not be rendered valueless by illegality, corruption or fraud.

Each proper facility for the naturalization of citizens of foreign birth should be afforded; but the Legislature, in its combined wisdom, can surely enact some mode to prevent the possibility of a single vote being cast upon spurious naturalization papers, and thus fully secure the purity of the elective franchise.

Insurance Department.

I repeat the recommendation made to the Legislature at its last session, that an Insurance Department be established, and a superintendent appointed by law, who shall have supervision and control over all insurance companies allowed to transact business within the State, and annually publish, under oath, full reports of their transactions. The community is deeply interested in this matter, and demands the protection which can thus only be afforded.

Paris Exposition.

I have received through the Secretary of State of the United States, a bronze medal and diploma from the Imperial Commissioners for the best specimens of Pennsylvania anthracite coal exhibited at the Paris Exposition in 1867. These tributes to an important branch of the internal resources of Pennsylvania have been assigned a place among other valuable relics in the Executive Chamber.

State Coat of Arms.

Diligent but unsuccessful search has been repeatedly made for the coat of arms of the State, and for the authority under which the present design was established. It seems that for years past no trace of either the original authority or design could anywhere be found, and it is recommended that the Legislature take the necessary steps to supply the omission, by such means as they in their wisdom shall determine.

Cattle Disease.

The prevalence of contagious or epidemic diseases among cattle and other animals has for some years past been a prolific source of anxiety and alarm among the producers and consumers of meats in many of the States. It was therefore deemed important to call a convention of competent persons to take into consideration the means best calculated to remedy this great and growing evil. This convention, composed of three commissioners each from the fourteen States represented, appointed in accordance with an agreement by the several Governors, assembled at Springfield, Illinois, on the first of December last, and an account of their transactions is herewith presented

Without legislative authority, but believing my action would be sanctioned by the peoples representatives, I appointed Dr Hiram Corson and Messrs. E. C. Humes and A. Boyd Hamilton, commissioners to represent Pennsylvania in that convention. These gentlemen freely gave their time and experience, and also incurred a pecuniary expense of about three hundred dollars, to defray which I recommend that an appropriation be made.

Resolutions of the Vermont Legislature.

Your attention is called to the accompanying joint resolutions, passed at the last session of the Vermont Legislature, bearing a just tribute to the late Hon. Thaddeus Stevens. Joint resolutions from the same body are also sent you, which I regard as worthy of your consideration, relative to the act of Congress "to establish and protect National Cemeteries," and recommending "to the Legislature of the State of Pennsylvania the passage of an act empowering the board of commissioners having charge of the Soldiers' National Cemetery at Gettysburg, to transfer all the right, title, interest and care of said Soldiers' National Cemetery to the General Government, upon the completion of the same."

It has been the misfortune of the State during the past year to lose by death two of her reprentatives in the Congress of the nation, Hon. Thaddeus Stevens, of the Ninth, and Hon. Darwin A. Finney, of the Twentieth District. Both were natives of Vermont, but in early life selected Pennsylvania for their home and identified themselves with her interests, which they were chosen to guard in the Legislature; and the people of the Commonwealth will long remember with gratitude their faithful and efficient services. The first went down to his grave after a long life of public usefulness and in well matured honors; the other in the prime of manhood, which gave promise of a scarcely less brilliant career.

Pardons.

The list of pardons issued during the past years will be found among the papers to which your attention is called. The principal reasons upon which they were based, and the names of some of the prominent petitioners, are given in every case. That a few of these pardons may have been unworthily granted, through misrepresentations of relatives, friends, sympathizing neighbors and other interested parties, there is no doubt, but in the majority of instances it is certain that the facts not only justified but demanded Executive clemency.

The whole number of applications for pardons during the year has been sixteen hundred and twenty-three.—The number of pardons granted in that time has been one hundred and six, which is a little over 6½ per cent. Of those pardoned about five per cent. have been again brought before the courts in consequence of their return to the commission of crime.

I am fully impressed with the weighty responsibility of the pardoning power, which ranks among the most difficult and embarrassing duties of the Executive office. Daily beset with powerful and pitiful importunities, as well as conflicting representations, from those in whom he should be enabled to place the fullest confidence, in order to avoid errors in the decision of any case, the Governor is compelled to take into consideration the action of the court before which the convict has been tried; the majesty of the law which may or may not have been violated; the condition of the prisoner; his temptation to err; the injury that may be inflicted upon his helpless and dependent relatives, and the arguments and appeals of citizens whose opinions and wishes he is *bound* to respect. And however just his decision and humane and generous his action, either in favor of or against the petitioner for clemency, he must expect to have his motives impugned, his name and character maligned, and to suffer virulent attacks for the exercise of this most important and merciful prerogative.

The pardon report will exhibit that many instances in which Executive clemency has been invoked, youthful prisoners, charged with their first offences, and those of a trivial character, have been the recipients. The object of punishment, in all cases, should not be so much to inflict pain as to reform the sufferer and prevent the repetition of evil deeds. This fact is frequently lost sight of in imposing punishment upon criminals, especially when inexperienced youths are shut up in close cells with men hardened in crime, where its arts are daily taught, and a romance thrown around its commission. Instead of being improved, they come forth at the expiration of their terms of sentence with the loss of self respect, their moral sentiments blunted, and prepared to practice upon society the infamous lessons they have learned. Such punishments tend to increase rather than lessen the quantity of crime. When houses of correction and reformatories are constructed, or a proper system of confinement and prison discipline is adopted,

ABUSE OF THE FRANKING PRIVILEGE.—New revelations of the extent to which the franking privilege is abused spring up every day. Not only are *fac similes* made so that the frank can be multiplied in unlimited degree by those entitled to use it, but it is counterfeited and extensively used by business firms to cover circulars and correspondence. The necessity for reform is all the while becoming more apparent.

☞It may be said for the benefit of those who are interested in General Grant's cabinet, that he has taken one step towards its formation. He received a letter advising him, as a measure of peace and harmony, to make Jeff. Davis Secretary of War, and directly afterwards informed several friends that he would not make this appointment. As anybody can find out whom he will appoint, anxious inquirers must for the present content themselves with knowing whom he will not appoint.

☞It is reported that the scholars of the public schools in Philadelphia are no longer required to study out of school hours. That will save many a life if it be true.—Ex.

How long are the school hours? If children are required to study five or six hours in the school house, it is enough

As a general rule five or six hours devoted to study is all that should be permitted to children. There should be no effort to hurry or cram them. Too many hours given to their lessons deprive them of the exercise of body necessary to physical development and health. It is much better to be a healthy man or woman, than to be a sickly scholar.

We think that in all public schools, no lessons should be given, no tasks imposed, but such as can be learned within the proper school hours.

THE RECENT GAME LAW.—An act in reference to the payment of premiums on foxes was passed by the State Legislature for this county, on the 8th of April, by which the premiums for foxes were increased, and additional premiums were included for other animals not specified in previous acts. The effect of this act is making itself manifest, to the extent of an increase of money and taxes, as we will show: The amount of premiums paid in 1866 was only $365,55; while for the year 1868, the amount of premiums reached the enormous sum of about $8000, as follows: For owls and hawks about $620, polo cats about $650; foxes about $1625; wolves about $46. Thus since the new act has gone in operation the premiums have increased to almost nine times the amount in 1866, or, while in 1866 a dollar a day was paid by the Treasurer for fox and other scalps, he now has to pay at the rate of $8.80 a day. It requires almost all the taxes of the heaviest paying township (Franklin, which is $3504.22) to pay the premiums on foxes, etc., under the new law; or the taxes of about seven of the smallest townships, viz: Union, $521,33; Tell, $569,39; Springfield, $519,13; Oneida, $492,61; Juniata, $281,13; Hopewell, $378,29, and Henderson, $574,11. This item of premiums is more than the tax-payers of the county can stand, and it is but just that the law should be repealed, and we understand a petition is to be presented to the Legislature, to that effect.

U. S. Senator--Hon. John Scott.

A caucus of the Union Republicans Senators and Representatives at Harrisburg on Wednesday afternoon last, *unanimously* nominated our townsman Hon. JOHN SCOTT, for a seat in the United States Senate for six years from the 4th of March next. This action was a little more than we expected. We *hoped* only for the success of Mr. Scott, but we did not expect that the strength of the several other strong candidates would break down so soon and so willingly. There never was a success gained in so short a time. The success of the "tanner boy" of Alexandria is another evidence that the people, as in the nomination of General Grant, are powerful if they have the will, and act their part well. Mr. Scott is nominated—the election will take place on Tuesday next. That he will be elected there cannot be a reasonable doubt—and then the people of old Huntingdon county will be honored—elevated! We don't propose to get *excited*—everybody in the county knows John Scott, and so we make a long story short by merely informing our readers that John Scott has been unanimously nominated as the Union Republican candidate for United States Senator.

JOURNALISTIC.—The Juniata *Sentinel* has enlarged to a seven column paper. It is twenty-two years old, and was commenced there by Col. A. K. McClure. It is deserving of increased patronage.

The Chambersburg *Repository* has entered upon its seventy-sixth year. It is the oldest journal, except one, in the State.

The Johnstown *Tribune* has enlarged to an eight column paper. It was not long ago that it was a puny six column journal, and its recent enlargements show its success and corresponding enterprise.

We have received a copy of the American *Mechanic*, printed at Harrisburg, and devoted to the interests of American mechanics. It is a useful journal, and is published at $2,00 per annum.

We have received the first number of a new candidate for public favor in the shape of the Bellefonte *Republican*, published by Messrs. Brown and Hutchison. It is a neat journal, and as Bellefonte is an enterprising community we have no doubt it will meet with a fair share of support

The Temperance *Vindicator*, published at Williamsburg, Blair county, by Dr. Jas. P. Thompson, has entered its second year. It deserves the support of the temperance people, as the editor is a bold writer, and has struggled through the first year with wonderful perseverance.

Choosing United States Senators.

From the New York Tribune.

The new Legislatures of Pennsylvania and Indiana will assemble next week, and will proceed, two weeks later, to choose each a United States Senator for six years ensuing in place of the Hons. Charles R. Buckalew and Thomas A. Hendricks respectively.—A more important duty can hardly devolve on either body, and we trust it may be discharged with a full consciousness of its grave responsibility.

Messrs. Buckalew and Hendricks are among the ablest men of their party—probably the two strongest Democrats in the Senate. They came in on the tide of National disaster that naturally resulted from the abortive, purposeless campaigns of McClellan and Buell; they go out because the Union cause is completely triumphant on a platform, whereof Man's Inalienable Rights form the base, and Emancipation the superincumbent structure. They were beaten when, in defiance of the impressive lesson of 1864, Seymour and Blair were preferred to Chase and Hancock as exponents and standard-bearers of partisan Democracy in 1868. The defeat was that of their party, for which they were not personally responsible. They were generals of division, sacrificed on the field of battle because "some one had blundered."

The new Legislatures of these States will, we trust, choose in their stead men at least as capable and influential as they are, while belonging politically to a better school. If men should be taken who compare unfavorably with them in every respect but their politics, great harm and wrong will have been done to the Republican cause.

We are constrained to say this, because we hear that pretenders are trying to make themselves candidates whose principal qualifications are impudence and money, mainly the former. We have no favorites, and have not even formed an opinion as to the man whom either State ought to send to the Senate; but we know right well that any man who can think of gaining a seat in the Senate by the help of money, cannot possibly be fit for a trust so exalted and influential. There can be no dispute on this point.

Pennsylvania has vast interests staked on the legislation of the next few years. She cannot be ignorant that powerful interests and influences are silently combining to entwolish, on the ruins of our present Tariff, a Financial policy which must inevitably extinguish half her furnace fires and silence the clink of the pick in half her already opened mines. She is in peril of baleful legislation even from the XLIst Congress, already mainly chosen; either in that or its successor—perhaps in both—her Mineral industry must battle for existence. She will need therein the very ablest and most influential representatives: she could well afford this hour to give ten millions of dollars for a Henry Clay or Walter Forward to put into Mr. Buckalew's place. We do not say she has him not; we only insist that she now put her best foot forward.

We congratulate our Republican readers that the choice of Pennsylvania for United States Senator has fallen upon a gentleman who possesses all of the qualifications so earnestly insisted upon by the editor of the N. Y. Tribune.

Railroad Meeting.

In accordance with previous notice, a large and spirited meeting was held at the Hotel of A. Crothers, in Orbisonia on the 22d inst., for the purpose of furthering the project of a Railroad from Mount Union, on the Pennsylvania Railroad, to the Baltimore and Ohio Railroad. The following officers were chosen: Hon. W. B. Leas, President; K. L. Green and George Swine, Esqs., Vice Presidents; Dr. T. A. Shade and Thomas E Orbison, Esq., Secretaries The object of the meeting was stated by the President, who also made some appropriate remarks urging the importance, and feasibility of the enterprise.

Mr. Potts of McConnellsburg, Fulton County, Pa., was then called upon, and ably addressed the meeting, inviting in conclusion the citizens of Huntingdon County to cooperate with Fulton County in making a survey from Mount Union to the Maryland Line. The President of the Middle Creek Railroad, Joseph Alexander, Esq., in a practical and spirited way, dilated on the advantages of Railroads in general, and the necessity of the present undertaking. At the close of his speech John Dougherty, Esq., of Mt. Union, was invited to address the Meeting, and his remarks afterwards ordered to be printed with proceedings.

ADDRESS OF JOHN DOUGHERTY, ESQ.

Mr. Chairman, and Fellow Citizens: You have met to adopt ways and means to open up a more direct rail road connection from the Chesapeaque Bay via the Potomac and Juniata valleys to the Lake regions, of which two short links are wanting and unprovided for: *i. e.*, from the P. R. R. to Mercersburg, Cumberland Valley, 43 miles, or from P. R. R, to B & O. R. R., 58 miles, and some 30 miles from E & P. R. R., to Clearfield, Pa. When these two links, one of 43 and the other of about 30 miles shall be opened up, the distance by rail from Erie to Washington city will be shortened 150 miles, and Buffalo brought 125 miles nearer to New York, and the travel from Pittsburg to Washington city lessened upwards of 80 miles; and on the completion of a branch from the proposed Huntingdon, Franklin and Fulton railroad, to the B & O. R. R. of about 33 miles, you would open up a direct railroad transportation from the Susquehanna Anthracite coal basins, via Middleburg, Lewistown, and Mt. Union to the B. & O. R., and thence South and Southwest to the interior counties of Virginia, etc., whilst rendering productive this great mineral region, where Anthracite and semi-Anthracite coal abounds, and where fossiliferous iron ore underlays this valley from the Anthracite coal basin to East Broad Top and the hemitite iron mines of Fulton and Franklin counties.

Mr. Chairman, there is no antagonism between the two main branches of your proposed railroad. The first division southward is common to both as also is the East Broad Top coal road. Of the route via Mercersburg, some 18 miles is already provided for by the Washington county railroad company, and the citizens of Franklin county, Pa, leaving 43 miles for which provision must be made. By this route the distance from the East Broad Top coal basin, and Mt. Union to Baltimore, via W. M. railroad would be 130 miles, and to Washington city via the Metropolitan railroad will be about the same distance.

From the proposed H. F. & F. R. R. to the Potomac river, 33 mile, a connection is necessary, and perhaps additional legislation should be had—Without a connection with the B. & O. R. R, your work would be incomplete. By this the branch you would open railway connection in a straight line from the Anthracite and East Broad Top coal basins to the Ohio and Shenandoah valleys, and from Mobile and New Orleans to the Lakes and Canadas.

Sir, your proposed Chesapeaque bay and Erie Railroad, is the shortest practicable railroad route by which to exchange northern and southern products. To us has been given the opportunity to secure a monopoly of the carrying trade from Lakes to the Chesapeaque bay, the National Capital, the West Indies, and Southern Atlantic seaboard States, and also the Anthracite and semi Anthracite coal trade, west and south. Sir, there is no doubt as to the necessity for opening both branches of this work.

Ft. Louden, Ft. Littleton, and Ft. Shirley indicate the most direct route for an international railway from the Canadas and the Lake regions to the National Capital. This great valley, teeming with coal and iron ore demands the opening of a coal and iron carrying railway from North to South. Sir, in this once ocean bed some dozen veins of fossiliferous iron ore is found—20 feet in thickness in the aggregate—(the ten lower veins have not been worked.)

In near proximity to the East Broad Top coal field rises a mountain 600 ft., in height with Hemitite iron ore, suitable for manufacturing Bessomer cast steel—three hundred feet in thickness and co-terminous with the limestone rock. One acre of these mines at one dollar per ton would pay for building a railway from thence to Mount Union and the coal now lying dormant in one hundred acres of the east Broad Top coal basin would at twenty-five cents per ton pay the cost of a branch railway from the proposed H. F. & F. Railroad, to east Broad Top.

In 1871 the Pa. Canal will be enlarged from Mount Union to tide water for the admission of steam canal boats of 200 tons burthen, when the owners of east Broad Top coal lands will have a monopoly of the bituminous coal trade eastward and southward.

Mr. Chairman, it is fair to estimate that over this division from Mt. Union to east Broad Top, one million tons annually of coal would be sent eastward, 500,000 tons southward, and 200,000 tons consumed annually in smelting and manufacturing iron along this line of railway. At 50 cents per ton the freight thereon would amount to $850,000; deduct 40 per cent. for expenses on it would leave a net profit of half a million dollars, or 24 per cent, on the capital required to build this division.

Sir, extend your proposed road to the B. & O. railroad, and 250,000 tons annually of Anthracite coal will pass over your railway. Complete your Chesapeaque and Lake railway and one fifth of the 5,000,000 tons now crossing by rail the Allegheny range will pass over the H. F. & F. railroad, to be quadrupled in ten years from the completion of the Pacific railroad. To this add freight on passengers and U. S. mail, and your road would earn upwards of $2,000,000 annually, on an investment of $3,000,000—say $1,000,000 capital sock, and the proceeds of $2,000,000 6per cent. bonds leaving to the share-holders cent per cent annually to be yearly increased.

Mr. Chairman, Milnor Roberts, Esq., a distinguished Civil Engineer, gives the cost of making charcoal iron at Lake Superior Fuel, $15; ore, $8; furnace expenses $4; royalty $1; other expenses $2 total, $30 per ton, and the net profits per annum from a furnace making 4000 tons, $60,000. When your iron and coal railway is built, iron equal to any other may be smelted along this road with coke at $15 per ton, and with Anthracite coal at $20 per ton; thus ore $5, coke $5, other expenses $5—total $15, add $5 per ton for Anthracite coal $20. Sir. this difference in favor of your iron region of $10 per ton alone, would in a few years amount to the whole cost of a railway from the P. R. to East B Top and the Hemitite iron ore mines of Fulton and Franklin counties A dozen furnaces with an average capacity of 6000 tons per annum could build a railway from Ft. Littleton, and a branch railway to East B. Top out of one years net profits; whilst building up iron manufactories from whence to supply the constantly increasing demand for cast steel railroad bars, at present imported to a great extent from England, building up a home mrkket for the products of your farms, forests and factories. Sir, "every dollar invested in railways (says Gen. Walbridge,) is the direct means of creating annually five times that amount," cheapness of material, salubrity of climate, and convenience for distributing your wares would enable you to supply a demand greater than two dream of.

In the construction of your railway you have no mountains to tunnel, no expensive bridges to build, such much rolling stock to provide, yours being links wanted to connect other railways, no rival railways to deteriorate your Capital stock, no extensions to disolve your earnings, and forming part and parcel of all the railways running from West to East, by the shortest and best practicable railway route across this neck of land between the inland seas of America and the Atlantic Ocean, into which the overland trade and travel from Europe to India, and from the Atlantic to the Pacific, and from the Atlantic to the Pacific, and from the Lakes to the National Capital must necessarily flow. Where coal and iron ore, limber, and one continuous avalanche of available water powers from the Falls of Niagara to the Falls of the Potomac would afford the means by which to make, vend and by the means of your Chesapeake Bay and Lake Railway distribute most cheaply the products of our factories, building up one continuous workshop and warehouse from Lake to Ocean. What the Mississippi is to the commerce of the great West, your Chesapeake and Lake Railway would be to the North and South, the band with which to bind the Union, more enduring than articles of confederation. But ere we can expect to receive help from abroad, let us put our shoulders to the wheel then Hercules will come and aid us in putting locomotives and coal wagons on the track.

Let us unite in taking stock to an amount sufficient to survey, grade and bridge, that part of your route common to the two main stems and branch road, that is, from the P. R. R. to Orbisonia. When this is done, survey and determine the location of the remaining sections, and obtain right of way. When this is done you can sell bonds binding on this division alone with which to lay rails thereon, appoint committees in every township in the counties of Huntingdon, Franklin and Fultin to be benefitted by the construction of your work. Memorialize Congress, the Secretary of War, the city council, the Mayor and citizens of Washington, Baltimore, Erie and Buffalo. The President and Directors of the Pa. Canal Co., P. R. R. Co., B. & O. R. R. Co., the owners of East B Top coal lands and all others interested in building the proposed international railway making the Capital of the Nation accessible to its defenders, and inaccessible to the world in arms. Then let us no longer stand idle in this the market place of the world. Sir "It is by mutual confidence and mutual aid that great deeds are done."

On motion of Samuel McVitty, Esq., a committee of three was appointed by the Chair, to draft a form of subscription to be presented to the citizens interested; the committee consisted of Thomas E. Orbison, Percival P. Dewees and Samuel McVitty, Esq's.

On motion of General Lane, a committee of three were appointed by the Chair from each of the townships interested, to take up subscriptions to defray expenses of contemplated surveys as follows:

Mount Union—John Dougherty, John Bare and Thomas H. Adams.

Shirley.—F. H. Lane, David Douglas and George Swine.

Cromwell.—Thomas E. Orbison, Michael Stare and P. P. Dewees.

Clay.—Samuel McVitty, Richard Ashman and Adam Hecter.

Dublin.—Dr. J. A. Shade, Henry R. Shearer and R. S. Kuhn.

Springfield.—Ephraim Baker, Newton Madden and William Madden.

On motion it was ordered that the first subscription money procured be applied, so far as necessary, to payment of expenses of publishing proceedings of the meeting.

K. L Green, Esq., was appointed Treasurer, and authorized to disburse, as well as receive moneys in connection with this enterprise.

On motion a committee of five was appointed by the Chair, to memorialize Congress asin their discretion deemed best—for an appropriation to the contemplation vas as follows: Gen. F. H. Lane, Hon. S. McVitty, Dr. J. A. Shade, Hon. Wm. B. Leas and D. S. Baker, Esq.

A unanimous vote of thanks was tendered Messrs. Potts of McConnellsburg, Alexander of Middle Creek Railroad, and John Dougherty of Mount Union; and proceedings ordered to be published in the Washington *Chronicle*, Baltimore *American*, and Huntingdon, Franklin and Fulton County papers.

HOUSES FOR SALE and RENT.

The subscriber will receive bids for the purchase of the large

THREE-STORY BRICK BUILDING

in which he now resides, and which is also occupied as a Hardware Store, Masonic Lodge and Chapter, and by the Young Men's Christian Association.

It is in a central business location, is a fine and substantial structure, having cut stone foundation and steps, pressed brick front, slate roof, French plate glass, solid walnut sash, best style of finish inside, with elaborate mouldings, fine glossing and graining. Gas pipes to every apartment, and whole house arranged with a view to comfort and convenience. Excellent well of water and very large cistern with both pumps on the porch.

On the building is a handsome Observatory, giving a pleasant view of the town and country for miles around.

Altogether this is the most desirable and valuable property in Huntingdon, which is now one of the most pleasant and thrifty towns on the line of the Pennsylvania Rail Road.

Brief Items.

The place to see a crowd every day is at Enterprise Headquarters.

Profitable bills—hand-bills, such as are printed at the Globe office.

There are 78,000 liquor sellers in Pennsylvania and 16,370 school teachers.

Form good resolutions now and keep them throughout your life.

The Altoona skating park was opened on Christmas day.

George Saylor's tannery, in Mifflin county, was destroyed by fire on the 27th ult.

Hon. D. J. Morrell had his pocket-book stolen from him recently while in New York.

The fee of registering a letter now is only fifteen cents. Heretofore it was twenty five

Stony Creek has on its winter suit of freeze; the mountains are wearing their fire, as usual.

Otto L. Snyder, son of Mr. Jacob Snyder, of Altoona, formerly of this place, died on the 25th ult., of consumption.

Last week was mild to a Spring degree.—On Monday Winter came again in his white mantle and stretched forth his icy fingers.

This is a bill-owe-you as month. People pretty generally understand what "Dr. To" and a column of figures mean.

The Presbyterian congregation of this place observed last week as a week of prayer, services being held each evening.

Messrs. Murray & Belford's store in Altoona was entered recently and robbed of valuables to the amount of $300.

Keep a diary, but if you commence one, don't give it up. Diaries for 1869 for sale at Lewis' Book Store.

Huntingdon is no longer "insignificant" since it has the prospect of giving a United States Senator. So be it.

Our new Sheriff has his hands full. He is going every day. We would rather hear of him having less office business to attend to

The railroad company have reduced the working hours of the employees in the shops at Altoona, to nine hours per day, with a corresponding reduction of wages.

We direct attention to the advertisement of the public sale on to-morrow, of valuable household and kitchen furniture by Mrs. L. C. Hall. Go and get bargains.

J. W. and W. P. Furey, editors of the Lock Haven Democrat, have been acquitted of the charge of libel brought against them by W. A. Furman."

On the 21st ult., Mr. Eli Crawford, of Susquehanna township, Juniata county, attempted to shoot a hog with a revolver, but the contents were discharged in his son's arm.

Our exchanges had more than the usual number of marriage notices last week. The month of December is always popular among the marriageable, especially about Christmas.

It is a singular fact, and one which has provoked cursory comments, that water on the sidewalks of Huntingdon always freeze with the slippery side up.

The Altoona Vindicator says "scarcely an evening passes without some villain grossly insults those females who are compelled to pass through the streets at night."

If you want to "turn people's heads" go late into church. If you want to make church members punctual, turn the seats to face the door.

The colored folks will hold a festival in their church on Wednesday and Thursday evenings for the benefit of their pastor. Everybody with money in their pockets are invited to be there.

The Lewistown Building Association has collapsed under a pressure of taxes. As we have not heard anything about the Huntingdon Association we suppose it has expired from the same cause.

This is the season of the year when many a poor family needs help—not alms—but remunerative employment. It is much better to help the poor to help themselves, than to bestow alms and make paupers of them.

The different religious congregations in this place, in conformity with a resolution of request of the I. O. G. T., will devote their regular evenings of prayer meeting this week to the special subject of temperance. The public are invited.

There is a fair prospect of a revival of business in Huntingdon early in the spring.—The furniture manufactory is to commence operations and some of our business men intend to increase their capacities. This is what we like to see.

Three men were recently arrested in Chambersburg for fishing with stir-nets.—We have the first instance to record where any man or party of men h. ve been arrested for fishing with nets in the Juniata, although there is a law to prevent it.

The temperance men of Illinois have resolved to organize a political party opposed to the manufacture and sale of intoxicating drinks. That is one way of getting opposition, and once get opposition and there is a show for action.

If the first twelve days in January prognosticate the weather for the twelve months of the year, as some people suppose, we are going to have a changeable spring, a hot summer, a rainy fall, and a changeable winter, with plenty of snow.

Rev. Father Gallagher, of the Catholic church of this place, bade farewell to his congregation on Sunday last. He has been instrumental in doing much good while here and vastly improved the appearance of the church. He goes to Pittsburgh, and Father Murphy succeeds him.

The people continue to patronize Enterprise Headquarters. New and fresh Groceries, Fruits, &c., &c., arrive at Massey & Co's. almost every day. "Small profits, quick sales, and half the profits given away every month," is the principle of doing business at Enterprise Headquarters. Everybody gains —nobody loses. The presents given away cost customers nothing.

☞ The members of the Union Republican County Committee are requested to meet in the Court House at Huntingdon, on *Thursday, January* 14, 1869, at two o'clock, P. M. A full attendance is desired, as business of importance will be brought before the Committee.

Appalling Accident.

The Johnstown *Tribune* says: On last Monday a party of men under the supervision of Mr. Benj. Jose went into an abandoned ore drift of the Cambria Iron Co on Prospect Hill, for the purpose of removing some old rails forming a part of the track of the drift. The drift had been abandoned for about four years. When the main body of the party had advanced about 20 or 30 yards, an explosion of "fire damp" took place, the gas being ignited from a lamp in the cap of Joseph Boltz, who was about 100 yards ahead of his companions. Frank Boltz, Conrad Teeter and Frederick Metzger received injuries from the effects of which they have since died. James George, Wm. Wills, Frederick McIntyre and Patrick McAleer also received severe injuries. It is thought that one of them cannot survive. All the injured men, except Metzker, were heads of families.

New Firm.

We call attention to the advertisement of A. R. Stewart & Co., dealers in Hardware, of this place, in this issue. The "Co." represents our young friend Frank W. Stewart, who is well known to our citizens without any recommendation from us. He is a promising (he would rather have cash than promises, though,) young man, and his knowledge of business as clerk qualifies him for the position he now occupies. We welcome him again to our community, and bespeak for the firm a liberal share of patronage. Give them a call at the sign of the padlock.

CALISAYA BARK.—It is said that Messrs. Drake & Co., (proprietors of the Plantation Bitters) are the largest importers of Calisaya Bark in this country, and that, with the exception of an occasional sale, all they import is used in the compounding of their celebrated Plantation Bitters,—to which they undoubtedly are indebted for their wonderful health-restoring properties. As a Tonic and Appetizer they are not surpassed, and we cheerfully recommend them. All first-class druggists keep them for sale.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price. tf

JAMES STEEL, ESQ.

James Steel, Esq., the subject of this notice, was born on the 10th of January, 1796, in the borough of Huntingdon, and was the son of the late Gen. William Steel. His mother was the sister of James Entrekin, Esq., the elder, late of Coffee Run, deceased. He obtained his elementary education at the Latin school of the Rev. John Johnston of this place, where nearly all the boys of the town were taught at that time, who aspired to knowledge higher than the common subscription schools then furnished. He read law with the late Robert Allison, Esq., and for several years after his admission to the bar, remained in the office of his preceptor, engaged in its general practice. He was a good scrivener, did a large amount of this kind of business, and was well acquainted with legal forms, instruments and proceedings. Though possessed of excellent and entertaining conversational powers, he never seemed himself to public speaking. For fourteen years after his admission to the bar, he associated with the gayest of society, as well as the most intelligent; and it afforded him great pleasure in his after life, to relate the many happy and witty incidents, which came under his observation, in his association with the lively and polished society, of which Huntingdon was at that time the center. He was three times elected Prothonotary of the county and filled the office with credit to himself and satisfaction to the people, from 1839 to the close of the year 1848. At the time of his death he was Assistant Assessor for Huntingdon County, under the Internal Revenue Laws of the United States.

In 1832 he connected himself with the Methodist Church; and through life, while his means lasted, he was one of its financial pillars. He loved its mode of worship and was peculiarly at home, in those great outbursts of the soul, of which that church furnishes such notable examples. No hallelujah was so lofty, that he did not delight to be borne on it, to the bosom of his Divine Master. He loved the simple manners of the common people and the common people loved him. A very few years before his death, when his adversities pressed heaviest upon him, and age and disease were summoning him to the tomb, he frequently walked on Sunday mornings, six or seven miles up Stone Creek, to hold Class meetings, and enjoy himself at the hospitable firesides of the good people of that neighborhood. He was a warm friend; a good neighbor; an agreeable and entertaining companion; a loving husband and father; and greater and better than all these, he was that noblest work of God—an honest man.

Huntingdon, Jan. 11, 1869.

In Memoriam.

A meeting of the members of the Bar of Huntingdon county was held in the office of Wm. Dorris, Esq., on December 28th, 1868. John G. Miles, Esq., was called to the Chair and John Scott, Esq., as Secretary.

John Williamson, Esq., announced the death of JAMES STEEL, Esq., in a few feeling and appropriate remarks, in the course of which he stated the fact that Major Steel had been admitted to the Bar on the 11th of August, 1818, upon motion of Robert Allison, Esq., his preceptor, after examination by a committee composed of Elias W. Hale, Thos Burnside, and John Tod, Esqs.

Upon motion of Mr. Williamson, R. Milton Speer, H. Sewell Stewart and Wm. P. Orbison, Esqs., were appointed a committee to prepare resolutions expressive of the feeling of the meeting. They submitted the following, which were unanimously adopted:

Whereas, Death has removed from our midst our brother James Steel, the oldest member of our Bar, we bow in humble submission to this dispensation of Providence and do resolve,

1st. That Major Steel, through a long life, proved himself a worthy and respected member of our profession, a useful and upright citizen, and a Christian gentleman.

2d. That having been called to fill several stations of public trust he was always found faithful and obliging in the discharge of duty, and he has left behind him a name for kind deeds that will not soon be forgotten.

3d. That in the social walks of life Major Steel was peculiarly gifted; with a most tenacious memory, a fluent expression and a warm heart he was the light of the social circle.

4th. That as a lawyer, citizen and friend we mourn his death, and condole with his family in their sore bereavement.

5th. That we will attend his funeral in a body and wear the usual badge of mourning for thirty days.

6th. That a copy of these resolutions be sent to his family, and published in the county papers.

J. GEO. MILES, Chairman.
JOHN SCOTT, Secretary.

SPECIAL NOTICES.

TESTIMONY of a PROMINENT PHYSICIAN.

DR. J. T. BAKER, a skillful and widely known physician of twenty years standing in Lancaster, Pa., gives his opinion of a popular household remedy, in the following letter:

LANCASTER, PA., November, 23, 1868.

DR. S. B. HARTMAN & CO.—*Dear Sirs:* During the past eight years I have had frequent opportunities to study the effect of Mishler's Herb Bitters upon persons suffering from Dyspepsia, Loss of Nervous Energy, Sexual Weakness, Diarrhœa, &c. Remedies were prescribed by other physicians according to the Homœopathic, Allopathic and Hydropathic schools, and only a comparatively few permanent cures effected. On the other hand, I have never known the Bitters to fail producing the desired result, and I still use them in the treatment of such complaints, with the highest success. I have no hesitation in saying that I consider Mishler's Herb Bitters the most efficacious remedy ever discovered for diseases arising from a disordered Stomach, Liver, Kidneys, Bowels, Lungs and Heart.

Yours truly,

TO THE PEOPLE OF HUNTINGDON COUNTY.

HUNTINGDON, December 23, 1868.

As there appears to be considerable trouble about who shall be appointed Post-Master in our town, and it being an office for which the person who may be appointed should contribute a liberal amount to some charitable purpose, I therefore offer myself as an applicant for the position of Post-Master at Huntingdon, Pa.; and I propose and will agree, giving my bond with the Commissioners of Huntingdon county for the fulfillment of the same, should I be appointed, to erect a Monument for de ceased soldiers, for the sum of Two Thousand Dollars, and take a view of our splendid Marble Soda Fountain.

APPLICATION FOR DIVORCE.

HUNTINGDON COUNTY, SS.

The Commonwealth of Pennsylvania to HARRIET ZEIGLER, late of Huntingdon county, GREETING:

Whereas, Charles Alfred Zeigler did on the 12th April, 1868, prefer his Petition to the Judges of the Court of Common Pleas of said county of Huntingdon, praying that for the causes therein set forth he might be divorced from the bonds of matrimony entered into with you the said Harriet Zeigler. We do therefore command you, the said Harriet Zeigler, as before commanded, that setting aside all other business and excuses whatsoever, you be and appear, in your proper person, before our Judges at Huntingdon, at our county Court of Common Pleas there to be held on the second Monday of January next to answer the Petition of Libel of the said Charles Alfred Zeigler, and to show cause if any you have, why the said Charles Alfred Zeigler, your husband, should not be divorced from the bonds of matrimony entered into with you, agreeably to the acts of the General Assembly of this Commonwealth, in such case made and provided, and hereof fail not.

Witness the Honorable George Taylor, Esq., President of our said Court at Huntingdon this sixteenth day of November, A. D. 1868.

Commutation of Sentences.

There are confined in the Philadelphia county prison the following named convicts, under sentence of death, for whose execution warrants have not been issued: Edward Ford, sentenced May 12, 1851; Jerry Dixon, May 30, 1863; Patrick Finnegan, February 9, 1863; Newton Champion, December 1, 1866, and Alfred Alexander and Hester Vaughn, July 3, 1868.—Successive Governors, for satisfactory reasons, have declined to order the execution of these persons. The law requires that they shall be executed in accordance with the sentence, unconditionally pardoned, or held in close confinement in the county jail during life. The latter punishment, with the embitterment constantly preying upon the mind that a death warrant may at any moment be issued, is perhaps the severest that could be inflicted. It would be both just and merciful to give the Governor authority to commute the sentence of death in the above named cases to imprisonment, at labor, in the penitentiary, for such a term of years as the ameliorating circumstances may seem to justify and demand. One of the convicts named has been imprisoned about eighteen years, and although it might not be advisable to set him at liberty, humanity and the ends of justice require the commutation of his sentence in the manner suggested.

Conclusion.

Many of the events that have transpired since my last annual communication to the Legislature have been unusually interesting and significant. They have been infinitely more than political, and bear directly upon the great interests and most sacred destinies of the nation. Apart from the vindication of the principles of the party which sustained the government and the army during the contest for the preservation of the Union, and the election to the Presidency of the first soldier of the age, is the fact that the people have by triumphant majorities forever settled our controversy upon certain fundamental principles. Parties may and undoubtedly will arise upon other issues, but there can be no future struggle about slavery.—Involuntary servitude, as a monopoly of labor, is forever destroyed. The monster obstacle to the national progress has been removed, and henceforward all the faculties of our people can be developed "without let or hinderance." The fair and exuberantly fertile States of the South, heretofore comparatively retrogressive and unproductive, relieved from this terrible curse, with the influx of northern immigration and capital will soon become the rivals of their northern sister States in all the arts of peace, and additional markets will be developed in which to exchange the varied products of the heretofore hostile sections.

Hardly less magical has been the effect upon other nations. General Grant's election has confirmed the hopes of our nation's friends, and the fears of its foes in the Old World. It supplements and seals the verdict of arms and the progress of republican principles. The downfall of the rebellion in the United States was quickly followed by the great civil revolution in England; the peaceful expulsion of the last of the Bourbons from Spain; the unrest of Cuba; the concession of more liberal principles in Germany; and the necessary acquiescence of the Emperor of the French in the republican sentiments he fears even as he has betrayed them. What are these but the echoes of the dire catastrophe that has overwhelmned aristocracy in the United States?

Nothwithstanding the importance of the issues involved in the late canvass, and the bitterness of feeling as well as the earnestness with which it was conducted, its termination has happily met with the acquiescence of nearly the whole people; and at no time in the history of the nation has there been opened before us a brighter prospect of continued peace and increasing prosperity; and we have no greater cause for universal congratulation than that no differences of opinion now exist that can materially mar our national happiness, retard our onward progress, or threaten the peace or perpetuity of our government.

In conclusion, permit me to remark that the voice of Pennsylvania, as well as that of a majority of the States, has at the ballot-box proclaimed to the world that all our national indebtedness, no matter how heavy the burden, will be paid according to "the letter and spirit" of the agreements made and entered into at the time the debt was contracted; and that in this as in all other respects our individual and national honor "must and shall be preserved;" that we are determined by all honorable means in our power to secure ample encouragement and protection to each and every branch of Home Industry, and every manly enterprise that contributes capital, labor, skill and industry to our material wealth, social advancement and political tranquility; that for all our citizens, the children of the Commonwealth, being also citizens of the United States, we demand the fullest protection, in their persons, their property, and in all their rights and privileges wherever they may go within the national jurisdiction or in foreign lands; and that whilst our financial policy shall be such as to maintain untrammelled our national credit, it is to be hoped that it may at the same time, be such as will permit and sanction the construction of the great railways now in progress and stretching out their giant arms to grasp the mighty commerce of the Pacific, to develop the untold resources of wealth in the intervening territories, and to connect the most distant portions of our country in a common union, not only with iron bands, but by the still stronger and more indissolnble ties of a common interest and a common brotherhood.

To lessen the burdens of the people, and to keep the expenses of the State as nearly as possible within the limits of its absolute necessities, will always be among the chief objects of wise and just legislation. Let us, then, with a due sense of our obligations and high responsibilities, endeavor so to discharge our duties as to secure the greatest good of the community and merit the approbation of Him by whom our Commonwealth has been so abundantly blessed.

SOLDIERS' HEIRS, ATTENTION!

The act of Congress approved March 2, 1867, gives to Heirs of Soldiers who died prisoners of war,

COMMUTATION FOR RATIONS,

for the time the soldier was so held a prisoner, at the rate of twenty-five cents per day, to be paid in the following order: 1st. To the widow, if unmarried; 2d. To the children; 3d. To the parents, to both jointly if they are living, if either is dead, to the survivor; 4th. To the brothers and sisters.

The act of February 26, 1867, provides for the refunding of the $300 Commutation Money, where the same person was again drafted, and was required to enter the service or furnish a substitute.

DISCHARGED SOLDIERS.

The act of March 2, 1867, also makes provisions for the payment of the

$100 ADDITIONAL BOUNTY

to such soldiers as have accidentally lost their discharges

All persons having any claims under any of the above mentioned Acts, or any other kind of claim against the United States or State Governments, can have them promptly collected, by addressing the undersigned. Information and advice cheerfully given to soldiers or their friends, free of charge.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cathartic Pills,
For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

McGUIRE'S
SPANISH HAIR DRESSER
FOR PROMOTING THE GROWTH, BEAUTIFYING THE HAIR.

And rendering it dark and glossy. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The use of this oil as a hair dresser has been universal in every section of the country in the Spanish Main for centuries.—No preparation of art could give that elegant luxuriance and abundance of hair which have so often been the admiration of travelers in Spain. This oil is highly and delicately perfumed, forming an article unrivaled in excellence and upon which the Spanish people for many years have set its seal of enduring approval.

McGUIRE'S
Mexican Wild Flowers Shampoo Lotion

For removing dandruff and scurf from the head, whitening and perfuming the skin. This article is entirely different from anything of the kind ever offered in this country and is warranted free from all poisonous substances. This valuable lotion was used by the Emperor Maximilian, and Empress Carlotta of Mexico, and universally used by Mexicans for three hundred years. As a wash for the head—it is cooling, cleansing and refreshing.—When thus used it at once relieves headache.

McGUIRE'S
WILD FLOWERS FOR THE TEETH.

All those who are in favor of white teeth and a pleasant and perfumed breath should at once use McGuire's Wild Flowers for the Teeth.
